Kepada: yogaparwata@undhirabali.ac.id

Dear Authors,

Thank you for submitting your article entitled: **"Correlation between the mobility of the above cage and the below thorax cage toward the elderly lung vital capacity"**.

Based on our author guidelines, Your article fulfilled the minimal required structure, <https://www.balimedicaljournal.org/index.php/bmj/pages/view/authorguidelines>
In order to have a better-structured article, we suggest you edit based on a checklist, the simplest way, you may use the Publons review checklist.

According to the new International regulation, please fulfill the requirements below:

1. Ethical clearance number/statement and informed consent at the end of the manuscript (**Confirmed**).
2. Please state your conflict of interest in the paper. (**Confirmed**)
3. Please state the funding (if any) in your paper. (**Confirmed**)
4. Please state each author's contribution. (**Confirmed**)
5. Consider determine the units/values in measuring the elderly lung vital capacity in the methods section.
6. How the authors evaluate the expansion of the upper and lower thorax by using the Midline instrument in this study? Please clarify it further in the methods section.
7. What is the statistical analysis software used in this study?
8. What is the "Good Health" criteria for elderly used in this study? Does all of respondents are free from comorbidities? Consider clarify it further in the methods section.

Please revise your article with the missing details, and send it back to us in **5 days (May 30th, 2021)**.

In addition, I do need to remind you that Bali Medical Journal is free to submit and Open Access for our readers. However, if your manuscript is accepted for publication, as the author, you will be charged **1,000 USD for APC (not included proofreading)**. Please confirm if you agree with this information.

Thank you for trusting us with your hard work

Warm regards,

Editorial Board Member

No.	Intisari	Commentary
1	Dear Editor,	The submission of your article should be accompanied by a cover page containing their title, author, institution, or any other relevant contact data.
2	Abstract	Please follow the guidelines in writing the abstract using background, aim, theory, and conclusion.
3	Introduction	The introduction should be written in a clear and concise manner. It should provide a brief overview of the research topic and its significance.
4	Method	The methodology section should describe the research design, data collection, and analysis procedures in detail.
5	Discussion	The discussion should interpret the findings of the study, compare them with existing literature, and discuss their implications.
6	Conclusion	The conclusion should summarize the main findings and provide a clear answer to the research question.
7	References	Our journal adopts the Vancouver numbering system for citation of articles. Please format your references according to the journal's style guide.

Commentary

Dear Sir/Madam,

Here are some commentaries to the manuscript entitled
“Correlation between the mobility of the above cage and the below thorax cage toward the elderly lung vital capacity”

No.	Section	Commentary
A	Title and Affiliation	1. The affiliation of each author needs to be appropriately written by suggesting their University, Institution, or any other relevant background.
B	Abstract	1. Please follow the guidelines in written the abstract using Background, Methods, Results, and Conclusion guidelines. 2. The keywords supposedly better written less than 5 words.
C	Introduction	1. Consider determining the primary outcome expected to be found in this study regarding the correlation between the mobility of the above cage and the below thorax cage toward the elderly lung vital capacity
D	Results	1. The tables and figures are not written adequately based on author guidelines. Consider fixing this issue.
E	Discussion	1. Do not repeat the results in the discussion section. Please focuses on the discrepancy between the recent findings and the previous studies.
F	Conclusion	1. Please provide information regarding conflict of interest, funding, author contribution, and ethics statement following conclusion.
G	Table, figure and Reference	1. Our journal adopts the “Vancouver Superscript” as the choice of citation format. Please format your <i>inline citation</i> and <i>bibliographic</i> as an example given below in: --Inline citation-- Ponten et al., showed that fasciocutaneous flap could be utilized to cover lower leg soft tissue defects. ¹ --Bibliographic--

		<p>1. Pontén B. The fasciocutaneous flap: its use in soft tissue defects of the lower leg. <i>Br J Plast Surg.</i> 1981;34(2):215–20. Available from: http://www.ncbi.nlm.nih.gov/pubmed/7236984</p>
H	Others	<ol style="list-style-type: none"> 1. There were numerous grammatical errors. 2. Please provide a statement regarding author contribution, funding, and acknowledgments. 3. Please complete the checklist attached on the <i>next page/ sent as a different file.</i>

According to the new International regulation, please fulfill the requirements below:

1. Ethical clearance number/statement and informed consent at the end of the manuscript (**Confirmed**).
2. Please state your conflict of interest in the paper. (**Confirmed**)
3. Please state the funding (if any) in your paper. (**Confirmed**)
4. Please state each author's contribution. (**Confirmed**)
5. Consider determine the units/values in measuring the elderly lung vital capacity in the methods section.
6. How the authors evaluate the expansion of the upper and lower thorax by using the Midline instrument in this study? Please clarify it further in the methods section.
7. What is the statistical analysis software used in this study?
8. What is the "Good Health" criteria for elderly used in this study? Does all of respondents are free from comorbidities? Consider clarify it further in the methods section.
