

ABSTRACT

The purpose of this research is to identify, classify and analyze idioms based on their form and meaning. In this study, a descriptive method was used and the data were obtained from lyrics of songs by the Blasta Rap Family and analyzed based on the theory of Boatner and Gates. The results of this study show that idioms come in many different forms.

In the song lyrics, there are idioms that classify information and lexical idioms that connect four classes: nominal verb idioms, adjective idioms, adverbial idioms, phrase idioms, and freeze idioms for this song. This study provides knowledge about the importance of idioms in semantic learning, especially for readers, and helps students study idioms for different purposes. Also, this study can be used as a reference for further studies. Keywords Keywords Forms and meanings of idioms, semantic analysis, genealogy of songs in the Brasta rap family.
